

# CW-HDD DUPLICATOR

## Microboards CopyWriter Hard Drive Duplicators

The Microboards standalone HDD hard drive duplicator is the perfect solution for those that need to make back-up or residual clones of the master hard drive (HDD) content.

Available in multiple size configurations supporting reading and writing speeds up to 75MB/sec, the HDD towers allow the user to make quick and reliable clones of nearly any HDD using virtually any OS platform, such as Unix, Linux, Windows, or Macintosh. The HDD duplicator supports the FAT16/32, extFAT, NTFS, and ext2/3/4 file systems.

Using the CW-HDD duplicator gives you peace of mind that each HDD will be copied accurately and quickly for a no hassle, low cost alternative to performing this task one at a time through a PC.

Additionally, the system offers a reliable Quick Erase and/or Full Erase option, but can also erase HDDs to the high government DoD 5220 standard which ensures there is no trace of the content left behind.
